AN INTIMATE CULTURAL JOURNEY WITH NICOLA SINCLAIR

Autumn in Piemonte

25 SEPTEMBER – 2 OCTOBER 2027

If you dream of immersion in the gastronomic, cultural and historic traditions of regional Italy, I have something special for you. I'm inviting you to join me, Nicola Sinclair, on an exclusive cultural and culinary exploration of Piemonte.

My love affair with Piemonte began whilst filming a television series in Alba, and since then, few places have captured my heart like this corner of northwest Italy. Its rich culture and incredible Slow Food traditions make it a haven for those passionate about food, history and beauty.

Our adventure begins with two nights in Turin, a majestic city of baroque architecture, bustling café-lined boulevards, and renowned for its refined cuisine, wines and aperitivi. We then travel south to Cuneo, where my dear friends, the Galleani d'Agliano family, have generously opened their magnificent 16th-century palazzo to us. For five nights we will live in this family estate, as their guests, nestled among the breathtaking Grana and Maira Valleys—a rare glimpse into a world few tourists ever see.

Along with their cousin Andreina d'Agliano, a highly respected and established specialist in Italian and European porcelain, we will explore the region's secrets. Our itinerary includes:

- An intimate tour of the family's silk museum, the oldest existing in Europe.
- A special talk on design and ceramics.
- Exploring local markets, meeting artisans and, season permitting, truffle
- hunting. A hands-on cooking class and an intimate wine tasting.
- Experiencing alpine cheese making and tasting rare varieties.

  Visits to historical museums, castles and architectural wonders.

Piemonte is a world-heritage region and a haven for food lovers, particularly in autumn. It is the season of rich porcini mushrooms, world-class wines like Barolo and, as autumn deepens, Alba's famous white truffles. Of course, there will also be time to relax and wander the historic parklands of the estate, home to a rare and historical plant collection and trees that are over 200 years old.

Come and share my passion for this extraordinary region. It will be an unforgettable journey.
